A Handsome Front.

When completed the new front to be erected for the White House from plans prepared by Messrs. Fisher and Wilson, will be one of the handsomest and most attractive in the city, and add vastly to the appearance of Government street. The ceilings are to be lofty, and the store floor is to be extended back a considerable distance. All the modern improvements are to be introduced by Mr. Young, such as an elevator to the cashier's office from various parts of the counters, such as are in vogue in the first-class establishments of the east and in San Francisco. The shelving is to be low. The plate glass is to be of the best Belgian brand. This glass will be used throughout the front. The elevation shows a two storey building with a central section towering up a considerable distance. The cornice to be used will be heavy and massive, giving the building an appearance of strength and durability. Mr. Young's name will appear in a recess specially prepared for that purpose. A stairway leads from the street to the first floor, a portion of which will be set aside for offices, and the balance will be used as millinery and other rooms in connection with Mr. Young's large and flourishing business. It is to be hoped that many others will follow Mr. Young's example and improve their premises. There is much room for this need reform in Government street.

Alaska's Mines.

Another strong mining company has been organized in Portland for the purpose of developing a rich mining property in Alaska. The company is composed of such men as Mr. Donald Mackay, C. E. Benn, D. T. Thompson, J. H. Brown, and D. M. Dennis. It is the intention to ship Burleigh drills and other machinery to the mine on Douglas island at once, so as to begin the work of development. As soon as enough ore is uncovered a mill will be erected by the company.

BENJ. F. HARRISON

Carries the Chicago Convention To-day--His Nomination is Made Unanimous.

Doubts as to the Vice-Presidency --The Convention Adjourns to Arrange the Matter.

THE CONVENTION.

Chicago, June 25—Harrison has been nominated for the presidency by the Republican National Convention.

Chairman Estee called the Convention to order a few minutes after 11 this morning. Every one was on tiptoe of expectation, and the excitement was at fever heat. Rev. Dr. Edwards, editor of the *North Christian Advocate*, of this city, delivered the invocation. At its conclusion the secretary read several letters from railroads, extending time of the tickets one day after adjournment of convention. Boutille, of Maine, rose by request to a question of privilege, and when recognized said nobody has any doubt where the affection of the Maine delegates lies. He then read the following cablegram:

Edinburgh, June 24—Earnestly request all friends to respect my Paris letter. I think I have a right to ask my friends to respect by letters and refrain from voting for me. JAS. G. BLAINE.

The reading of this, the third determination of Blaine to keep out of the race, was received with thunderous applause which only subsided when the chairman, announcing that the sixth ballot for the presidential nominee was in order. The ballot was as follows: Whole number present 830; Alger 137; Harrison 231; McKinley 12; Allison 73; Sherman 244; Grant 1; Gresham 91; Blaine 40; Foraker 1.

A motion was then made making the nomination of Mr. Benjamin F. Harrison, of Indiana, nominee of the convention for the Presidential contest for 1888.

After Harrison's nomination had been made unanimous a motion for recess was made, but was voted down. Roll was then called for Vice-President nominations.

THE VICE-PRESIDENT.

The first name presented was that of Bradley of Kentucky, by Daly of same state. When he finished his speech, Hiscock moved a recess until 6 p.m., which was carried.

Chicago, June 25, 3:30 p.m.—It is stated at this hour that Levi P. Morton of New York will, in all probability, be chosen for Vice-President.

THE FATAL COAL OIL STOVE.

Santa Anna, Cals., June 23—W. H. Shaw endeavored to light the gas oil stove last night. The stove exploded. The house and contents were destroyed, and Shaw's mother fatally burned.

A DESPERADO AND A MURDERER.

Lake Megantic, Que., June 23—Lucius F. Warren, United States Deputy Marshal, was shot dead by a desperado whom he was trying to arrest named Donald Morrison, on a charge of poisoning. Morrison is still at liberty and threatens to do more harm, and swears he will not be taken alive.

TRIED BY FIRE.

Sumarville, Cals., June 23—The entire business portion of this town was destroyed by fire this morning. Loss, $40,000; insurance, $7,000.

KILLED ACCIDENTALLY.

Los Angeles, June 25—H. Slotterback, an old gunsmith, was killed yesterday by the accidental discharge of a gun.

CABLE NEWS.

EMPEROR WILLIAM.

Berlin, June 25—The Emperor and Empress made a formal entry into Berlin last night. The royal couple were given a royal reception in Baden. The leader of the Frieburg students was sentenced to three weeks imprisonment, and his accomplices to less terms for the insult referred to, and all were heavily fined.

AN UNEASY FEELING.

London, June 25—A dispatch from Shanghai says a feeling of uneasiness prevails among foreigners in Corea on account of the threatening attitude of the natives. All foreign Consulates are guarded by soldiers. An American man-of-war has been sent to give assistance.

TO MEASURE SWORDS.

Paris, June 25—At a meeting of the French students to-day it was decided to challenge ten students of the German society to measure swords with ten from the French students, on neutral ground in Switzerland, in consequence of the insult which the Frieburg College students offered to French tourists.

The Boat Race.

We were able to give the result of the sculling contest between Peterson and Paine, for the championship of the Pacific coast, in our Saturday's issue, and an extended reference to it to-day is unnecessary. Peterson won from the start and after the first mile had been rowed, it was simply an easy procession for the Californian. Paine was undoubtedly over trained, and being a young oarsman and accustomed to victory he apparently became demoralized when he saw his opponent forging to the front. The water was also unfavorable to him. He rowed, however, gamely to the end and although he has often covered the distance in less time he did his best on this occasion. Paine is just as good an oarsman as he ever was and will become a better; the mistake made was in under-estimating Peterson's abilities. The time of the winner was 21:34.

The Portland papers claim that the time made by Seeley, in his race with Stevenson last week on the Willamette, was 19 minutes and thirty-five seconds. If the distance rowed was the full three miles, up and down stream, this time is an exceedingly fast one. Seeley need not "back water" from any one, not even the great William Kemp of Australia.

"Penny Wise and Pound Foolish."

That's what men are who plod along—trying to do their business, when they feel half dead. Their eyes are dim and throb; their head aches; the children annoy them; their wives lose their charms; they lose their ambition; they make mistakes in their accounts, and the whole world looks blue; they hate themselves and everyone else. And why? If you feel so, why don't you stop and *think* a minute—or are you too stupid? Your liver and blood are out of order; that's all. You need a good regulator and tonic. Take a bottle of Dr. Pierce's Golden Medical Discovery, and you will feel like a new man. In three days your wife will be the prettiest and sweetest woman in the world; your children's disposition will be exactly like your own; your business will improve, and you will make money enough to pay for the "Golden Medical Discovery" a hundred times over. Don't be stubborn, but try it.

If you suffer from "cold in the head," or from Nasal Catarrh, use Dr. Sage's Catarrh Remedy. It cures when everything else fails. wed-sat

A Commendable Move.

Mayor Oppenheimer, of Vancouver, has issued a circular intimating that a fund has been placed at his disposal by the City Council to make a collection of vegetables, the horticultural and mineral products of this Province for the purpose of exhibiting the same at the approaching Industrial show to be held in Toronto. Mr. Oppenheimer is asking for the co-operation of municipalities and all interested in the prosperity of this Province to make the exhibit as perfect as possible. It is his intention to forward the exhibit to various points in Ontario as well as through the United States. This is a commendable move on the part of Mr. Oppenheimer. In no other way can the Province be so thoroughly well advertised.

The S. and O. Railway.

Says the Toronto *Empire:* On his return to British Columbia, Mr. Mara, M. P., was interviewed, and is credited in the British Columbia papers with saying that although no railway subsidies were granted last session, and it was some disappointment to him that the Shuswap and Okanagan railway was overlooked, yet that he expected satisfactory arrangements would shortly be made to enable the promoters to go on with the road without delay. It is understood here that the Government have intimated to the British Columbia members that if the public revenues will admit of the granting of any railway subsidies next session that the Shuswap and Okanagan railway will certainly be included in the Government proposals.

Patti-Rosa.

San Francisco *Chronicle*: Patti-Rosa, who is one of the neatest, most agreeable and cleverest of soubrette actresses, is doing, as she deserves, a big business at the Bush-street theatre. Patti-Rosa is about the most refined of all that class of artists, and her most boisterous business is free from the coarseness and vulgarity which mar most of them. She is bright, quick, and attractive. She has a comic eccentricity with her in the shape of Coote, a pink-faced, red-headed young man, who does not act, who does not belong to the play particularly, but who is irresistibly funny, and dances remarkably. The company is much better than the average, and the play makes altogether a pleasant entertainment. The place Patti-Rosa has won for herself is a notable credit to her.

Marriage Bells.

Mr. Harry Flett, of the firm of Johnson, Walker & Flett, and Mrs. Lizzie Martin, were married this morning by the Rev. Mr. Wadham. The bride, who, until recently, was a resident of Victoria, arrived from San Francisco this morning. THE TIMES extends its congratulations upon the auspicious occasion, and hopes that Mr. and Mrs. Flett may enjoy long and happy lives.

The Experimental Farm.

It is reported that the site selected for the experimental farm at Agassiz was under several feet of water during the recent inundation. It is to be hoped this report is not correct, as if it overflows its usefulness as an experimental farm will have ceased. To dyke it would be an expensive operation to the Dominion.

Shipping Notes.

Steamer Wellington passed up to Departure Bay at 7:20 this morning.

Steamer Mexico arrived at 8 o'clock this morning from San Francisco.

Ship Argyleshire sailed from London for this port on June 20th.

Schooner Puritan will load at Royal City Planing Mills for Mexico.

VICTORIA DISTRICT.

The election in Victoria District, which takes place next Saturday, we have several excellent reasons for believing, will result in the return of Mr. McILMOYL, the People's Candidate. A comparison of the two candidates—their intellectual qualifications and generally their personal fitness for the position of representative—can but lead electors to one conclusion, viz., that Mr. McILMOYL is infinitely the better man of the two. We have no desire to wound Mr. TOLMIE's feelings by pointing out in detail the numerous disparities under which he labors, or to unduly magnify his eminent unfitness for the position to which he aspires. Until induced by wire-pullers—who manipulate the elections in behalf of the government—to emerge from the seclusion of private life, he pursued the even tenor of his uneventful days indifferent to public affairs, uninterested in politics, careless even about exercising his right of franchise and unutterably ignorant of the first principles of Government, the functions of Parliament, or the duties of a Legislator. He is no better and no worse than scores of other young and unambitious men of the present day who read little and forget what little they read. Lacking "a mind of his own," he has been chosen by the bosses, on the same principle that a potter selects the most pliable clay. Personally he is a respectable citizen—the son of a worthy father—whose mantle, however, he does not wear, and the weight of whose name cannot compensate for the inherent intellectual defects to which we have barely hinted. There is no man in Victoria district who would have more cause to regret his election—if such a thing should happen—than himself; for we feel convinced he possesses sufficient intelligence to see and enough honesty to admit that he had, through the accident of birth and the bribery of his political friends, attained to a position that nature never designed him to occupy.

It would not be invidious, under the circumstances, to refer to Mr. McILMOYL's qualifications as a member of the Legislature, a position he has already filled with credit to himself and to the Province, or to point out that he possesses, in a marked degree, the abilities that are essential to success in the political arena; but the electors of Victoria District who know the candidates intimately are well informed in respect to the qualifications of both gentlemen. Mr. McILMOYL, who has been selected by the people in public meeting, is an intelligent farmer who has always taken an active interest in public affairs. He is an excellent speaker, and being well informed on Provincial affairs is able to place his views before the people in a clear, convincing and forcible manner. He holds opinions and can express them. In private life he enjoys the confidence and esteem of all classes of the community, and as a politician his bitterest opponent—the Colonist—has been unable to present any valid objection against his election.

The electors of Victoria District may be depended upon if left to themselves, to return Mr. McILMOYL. The Colonist is appealing to the mean side of human nature, and from a dollar-and-cents point of view is attempting the impossible task of showing that a confessedly incompetent representative should be chosen. An appeal to fanaticism and religious bigotry is not more unworthy—certainly not more degrading—than an appeal to the cupidity and avarice of the mercenary side of human nature. An array of figures to prove that a district will fare better in respect to appropriations if it elects a supporter of the Government is a shameful acknowledgement that the Government is influenced in the discharge of its duties by the most corrupt of all motives, and retains power by the purchase of its supporters both in and out of the House. It is a scandalous exhibition of the venality of a government when the only plea its chief organ can put forward in its favor is: "Elect a supporter and large sums of money will be expended upon your roads; refuse to do so and the present appropriations, which we admit are yours by right, will be materially reduced or entirely cut off." Politics in British Columbia have assuredly come to a low ebb when the making of the laws for a province and the good government of the country are dependent upon the amount of "boodle" that the Government can throw into a doubtful constituency. There is, we feel assured, too much intelligence in Victoria district to be influenced by such sordid appeals.

The balance of trade continues largely against this country, chiefly because of the extent of foreign investments in American securities. So far as this year has gone the balance against the country is $20,772,000, and when to that is added the customary allowance of $10,000,000 per month for undervaluations, etc., it will bring the amount up to nearly $70,000,000.

The annual statement of the Merchants' Bank has been issued and shows the net profits of the year to have been $612,905, which, added to the balance carried forward from last year, makes $634,514, disposed of as follows: dividends at the rate of seven per cent. per annum $405,944; added to rest $220,000, bringing it up to $1,920,000.

Mr. J. Gordon Brown, for close upon forty years the principal writer on the Toronto Globe, in the last issue of The Week advocates the assumption by the Government of the importation, manufacture and sale of liquor. He would have the distilleries and breweries purchased by the Government or worked by their present owners under Government superintendence. He would impose stringent regulations against the use of immoderate quantities of liquor and would insist on an entire stoppage of supplies to the intemperate. He holds that by this policy the violent measure proposed by the prohibitionists of stopping the manufacture in a single day, without compensation to owners, would be avoided and the Government placed in a position to follow public opinion as expressed at the polls by not replacing used up plant, and thus curtailing production.

OUR TOWN MAJOR.

Saturday Evening Notes--The Sabbath in the City--Churches, &c.

The result of the boat race on Saturday evening left many a deep impression of Paine, not only on the crowd round Campbell's corner but throughout the city at large. It's needless to say that the race was the absorbing topic of town talk from him of the humble pea-nut stand on Government street to the larger establishment of our bloated aristocrats. Who'll say now, after the excitement of Saturday evening, that Victoria cannot be electrified by very small events. The Major always having his batteries full on, failed to be electrified; he neither lost a cigar, a drink or a bat on the event, simply because he didn't bet, not having the wherewith. To those who may have a pain in their heart, their brain, or their stomach, after the exploit of Saturday evening the Major offers his sympathy and begs to suggest his universal cure for such disease, *i. e.*—Don't.

The several churches were pretty well patronized yesterday, the fair ones, as usual, being in the majority—"two to one bar one." The toilets, if anything were more seductive than ever; while the sermon at Christ Church Cathedral was in keeping with the times, and fully endorsed the panks of "The Major's" platform. It's very naughty not to recollect the text, but when given out the Major was otherwise engaged, noting the artistic construction of a veritable duck of a bonnet just in front of him. It wouldn't have been proper, you know, to note such vanities during prayers, but it was somewhere in Isaiah. The gist was that the Lord and giver of life delighted in life and that this terrestrial ball was so constructed as to contain everything calculated to make that life enjoyable, but that us men, even the preacher himself, was so prejudiced, narrow-minded and neglectful of the bounties of nature, that we even here in Victoria failed and neglected to avail ourselves of the lavish goodness poured down by no unsparing hand, and only assisted to induce death and destruction where life and enjoyment were intended, etc., etc. The sermon was short but sweet, and to the point in one or two passages, where the reverend gentleman hit straight out from the shoulder "The Major" clapped him silently but vigorously. Its a sign of the Times at last awakening even the pulpit to a sense of the necessities of the day. Take courage—a little stronger the next time.

Many were the visitors to Beacon Hill either in pursuit of health or recreation—old and young, rich and poor (if any here)—it was a real pleasure to note how one and all enjoyed and appreciated the indescribable pleasure of a stroll in the park. The Arm, as usual, secured its share of visitors; even "The Major" was persuaded to dissipate a little, and thoroughly enjoyed it too. Why his fame has reached up the sleeve—now the Major's not joking—he means Arm, "even, yea! from Dan unto Beersheba." Our admirer, an Englishman of genius, drifted amongst other wreck and rubbish to the shores of the Pacific by that ever-increasing current—the C. P. R. In Victoria a few years ago found him almost in want—Carpenter, stonemason, bricklayer, plasterer, painter, artist, musician, comic singer, tight rope dancer, anything, everything, and now by perseverance and industry he's the owner in fee simple of two acres, nice cottage, outhouses, etc., and seems as happy as the day is long in this nook of fairyland, amidst all the allurements of not only rural but also connubial felicity. Our friend being very uxorious finds great pleasure in beautifying this dove cot beneath the shady groves of the Craigflower road, blest with a partner of his joys and sorrows in a lady of culture, taste and refinement. Enter the lowly cot, glance at the home-made book shelf, observe the relics saved from the wreck; you can then well judge of the taste of the occupants. Art, music, and the drama were freely discussed, interspersed with sad tales of the ups and downs of life, the Chinese question, and the Jubilee Hospital; politics too were handled, and the Major found himself before he knew it in the clutches of a champion of Bradlaugh. A short visit to Marshall's retreat, where were seen many enjoying the unsurpassable beauties of surrounding nature; the big organ was playing, so were the billiard balls; the harsh clank of the latter spoiling not only the harmony of that great mechanical marvel of sweet music, but also seemed to dispell that inborn sense of the quiet Sabbath nature which appeared to spread around. The constant stream of boats passing up and down, the gay laughter, snatches of song floating with the tide, entranced "the Major" as he sat on the shady bank, thinking of his lowly but ardent admirers in their cosey little cot amidst such scenery. He did not envy, but he thought how many more of his toiling fellow men, fighting the battle of life for a bare existence in an over-crowded land would be only so glad to be transported to this seventh Heaven of earthly paradise were they only enabled to attain bread for themselves and their loved ones. Here are thousands and thousands of acres. Boycot the Chinee; settle up your vacant lands; turn your beautiful wilderness into a garden. But how can it be done with land at $700 an acre?

There seem to be many strangers in the city just now; the fame of the beautiful Victoria has reached even into the uttermost parts of the earth. Thousands come to enjoy the beauties of our surroundings, and universal admiration awake the echos of far off valleys of our western prairies, picturesque themselves in their own way. The prairie roses come from the east to pay tribute to those of our much favored land, and maybap should the climate suit we may ere' long find the fair blushing roses of our western plains transplanted to our coast, vieing with our native flowers in beauty and loveliness. "The Major" is happy to observe that Miss Empey, from the picturesque Qu'Appelle valley is paying our city a visit. It is hoped her stay may be long, pleasant and enjoyable; perhaps "for ever and for ever." Accept the most hearty welcome from THE TOWN MAJOR.

Behring Sea Fishery.

In the Imperial House of Commons a few nights ago Mr. Gourley asked what measures the government have adopted for the purpose of preventing the crews of armed Canadian sealing schooners, recently assembled at Victoria (British Columbia) from carrying out their threats of resisting the authority of American cruisers in the prohibited waters of Behring Straits; and, when the correspondence regarding Alaska's fisheries disputes will be laid upon the table of the House. Sir J. Fergusson said in reply: I am informed that the government of the Dominion have cautioned persons engaging in sealing expeditions in the Behring Sea from using force in the event of their being interfered with by the United States officers. The questions involved are the subject of consideration by the governments of Her Majesty and the United States, and it would not be convenient or usual to present the correspondence before it is concluded. In answer to a further question from Mr. Gourley, Sir J. Fergusson said that the correspondence between Her Majesty's government and the government of the United States was being conducted diplomatically and in a friendly manner, and he deprecated any discussion upon the matter at present.

Ottawa News.

From Ottawa we learn that petitions and letters protesting against the appointment of Dewdney still pour in. Birmingham, the Tory organizer for Ontario, has been sent there, principally by the members of parliament for Toronto and prominent members of the party, to protest against the appointment. The result has been that Sir John Macdonald had arranged to go to Toronto yesterday the 21st inst., and have an interview with the dissatisfied ones. Birmingham has been in Ottawa for two days pressing matters on the Government, also stating that the other charges made do not give satisfaction to the party; in fact he fears a rebellion in the camp.

Tasse is spoken of to succeed the late Senator Fortin. There are now seven vacancies in the Senate, one in British Columbia, one in the Northwest, one in Manitoba, one in Ontario, and three in Quebec.

Hon. Mr. Chapleau has returned from New York where he was floating a new railway scheme. He is said to have been successful.

Home Mission Fund.

The report of the Home Mission Board of the Presbyterian Church in Canada presented to the General Assembly, states that for the present year it is calculated that the sum of $35,000 may meet the demands for augmentation, but for home missions, in view of the constantly widening field in the Northwest, and the new ground taken up in British Columbia, there will be required nearly $55,000. The entire expenses connected with the work in British Columbia, in sustaining mission stations and sending out missionaries, falls upon the home mission fund. It only needs, however, that the claims of missions and augmentation be candidly and fully stated to the membership of the Church to secure the means to enable the committee to hold the ground already occupied, and advance to newer outposts.

AYER'S Sarsaparilla
PILLS
Cathartic

If the Liver becomes torpid, if the bowels are constipated, or if the stomach fails to perform its functions properly, use Ayer's Pills. They are invaluable.

For some years I was a victim to Liver Complaint, in consequence of which I suffered from General Debility and Indigestion. A few boxes of Ayer's Pills restored me to perfect health.—W. T. Brightney, Henderson, W. Va.

For years I have relied more upon Ayer's Pills than anything else, to

Regulate

my bowels. These Pills are mild in action, and do their work thoroughly. I have used them, with good effect, in cases of Rheumatism and Dyspepsia.—G. F. Miller, Attleborough, Mass.

Ayer's Pills cured me of Stomach and Liver trouble, from which I had suffered for years. I consider them the best pills made, and would not be without them.—Morris Gates, Downsville, N. Y.

I was attacked with Bilious Fever, which was followed by Jaundice, and was so dangerously ill that my friends despaired of my recovery. I commenced taking Ayer's Pills, and soon regained my customary strength and vigor.—John C. Pattison, Lowell, Nebraska.

Last spring I suffered greatly from a troublesome humor on my side. In spite of every effort to cure this eruption, it increased until the flesh became entirely raw. I was troubled, at the same time, with indigestion, and distressing pains in

The Bowels.

By the advice of a friend I began taking Ayer's Pills. In a short time I was free from pain, my food digested properly, the sores on my body commenced healing, and, in less than one month, I was cured.—Samuel D. White, Atlanta, Ga.

I have long used Ayer's Pills, in my family, and believe them to be the best pills made.—S. C. Darden, Darden, Miss.

My wife and little girl were taken with Dysentery a few days ago, and I at once began giving them small doses of Ayer's Pills, thinking I would cut a doctor if the disease became any worse. In a short time the bloody discharges stopped, all pain went away, and health was restored.—Theodore Ealing, Richmond, Va.

CLINTON COUNTY COURT.

Presentment of the Grand Jury—Hints to the Government.

At the sitting of the County Court at Clinton, on the 13th inst., the Grand Jury submitted the following presentment:

TO THE HONORABLE MR. JUSTICE WALKEM:—May it please your Lordship—In submitting this presentment, we the grand jurors, with your Lordship deplore the heavy calendar of crime we have had to consider.

In the interests of the public generally we have inspected the jail and found everything neat and clean and kept in perfect order, but would suggest that proper bunks be put into the cells with mattresses.

We would also suggest that a proper jury room should be supplied to the jurors, as the one now in use is too small and too near the court, often causing interruptions to any business which may be going on in the court.

Complaint having been made to the grand jurors with regard to the bad and dangerous state of the roads throughout our district, we would ask your Lordship to recommend that the appropriation for the keeping of our roads in repair should as far as possible be spent in early spring so that the public generally might be benefitted thereby during the whole season.

We may say, in conclusion, that we are happy to find your Lordship enjoying such apparent good health, and trust that you may so continue for many years to come.

WM. WALKER,
Foreman Grand Jury.

Clinton, June 13, 1888.

MISQUOTING THE LAW.

TO THE EDITOR OF THE TIMES:

SIR—I observe in your issue of Friday evening a communication signed "Fair play," setting forth that "the Bench of magistrates have ample discretionary powers in granting of licenses," and quoting Sec. 9 of the License Ordinance, 1867, to show that such is the case. I feel sure that "Fairplay" has not any intention of mis-stating the facts, but he is mistaken in the authority, as the section mentioned by "Fairplay" has no existence in any municipality in this province. A Bench of magistrates in the granting of liquor licenses must be governed in the municipalities by Sections 152 to 157 of the Municipalities Act, 1881. I feel as "Fairplay" no doubt does, that liquor licenses ought not to be granted indiscriminately.

JUSTICE.

DEATH OR DRAINAGE?

TO THE EDITOR OF THE TIMES:

SIR,—Mr. Sorby's remarks in your issue of Thursday are worthy of being earnestly considered by every inhabitant of this city, dealing as they did, with a question involving the most serious consequences including death. I am but a recent arrival in Victoria. When I came here and saw the apathy of its inhabitants in connection with most matters, I was told that such was due to the balmy nature of the air. Be that as it may, doubtless something of an extraordinary character must exist to account for one of the fairest situations in the world, and naturally one of the healthiest, being allowed by its generally well-to-do inhabitants to remain in its present filthy and most dangerous condition with regard to drainage. There are no insurmountable difficulties in the way of this necessary work being carried out. The inhabitants of Victoria are beyond the average with respect to means. *The credit of the city is good; yet it remains Victoria, the undrained!* What, I would ask, do the advantages of our lovely climate and beautiful scenery amount to, if people cannot walk the streets without fear of meeting their death? When typhoid and diphtheria are claiming their victims, and mothers hesitate to allow their children to go into the streets, for fear of their inhaling deadly drain poison, the time has come sir for such plain speaking as the above. *Death or drainage is now the question?*

Presbyterian Assembly.

Halifax, June 18—Nearly all the city pulpits were occupied yesterday by delegates to the Presbyterian General Assembly. The services were unusually well attended. During the excursion given to the visitors on the harbor yesterday afternoon, a heavy wave washed over the steamer's deck and a large number of clergymen and others got soaked.

The reports from the several colleges showed gratifying success.

In the discussion the Common College fund of the west, which is about a dead thing anyway, was given a polite intimation that its funeral should shortly take place by the appointment of what will doubtless turn out to be its obituary committee, and hereafter congregations of the west will be allowed to support whatever college they see fit. At the hour of adjournment returns from the remits sent down by the colleges concerning the substitution of certain medical subjects instead of some subjects now required for licenses in the case of students in preparation for foreign work was under discussion.

The Rev. Dr. Torrance reported from the committee on distribution of probationers. The Assembly agreed that a name on the list two years be dropped. Presbyteries refusing to receive a supply will not be permitted to send names of persons desiring to supply. The question of the status of city missionaries was remitted to the home mission committee to report. The statistics of the church for the past year was placed before the Assembly by Dr. Torrance, and proved the best in the history of the church. The report of the church and manse building board of Manitoba and the Northwest was presented by the Rev. Dr. Robertson. Dr. Burns reported from the committee on Anglican union, but the hour of adjournment having again arrived, the sederunt adjourned. An overture was submitted with reference to the marriage law of India.

The next meeting of the General Assembly will be held in St. Andrew's Church, Toronto, on the second Wednesday of June, 1889. The scheme to purchase the Ottawa Ladies' College to be under the control of the board, was endorsed by the assembly. Rev. Dr. Burns and Rev. Robt. Murray reported from the committee on the bi-centenary of the Revolution of 1688. They express thanks to God for the great deliverance, and the assembly expressed its united adherence to the principles of civil and religious liberties inaugurated at that period. It was unanimously adopted.

The question of marriage with the sister of a deceased wife was again brought up and the whole matter was referred back to the various presbyters. The report of the Temperance committee was received and discussed at length. The first clause was adopted, but the second advocating prohibition received opposition from Rev. MacDonnell, of Toronto, who did not believe in prohibition and thought much was to be said in favor of high licenses. He moved a counter resolution as follows:—"The Assembly urges upon all members of the church in the capacity of citizens to use their utmost endeavors to secure the passage of such laws as shall tend to effectually reduce the evils of intemperance.' The debate adjourned.

MARVELOUS WORKS.

People Cured by the Wonderful Electro-Magnetic System, as Practiced by Drs Darrin.

Marvelous and miracle are synonymous terms. Miracles are not worked in the prosaic times. It does sound marvelous, however, and it seems like a miracle when the fact is put before you of the wonderful cures as performed by the Drs. Darrin at the International Hotel, Cherry Street, Seattle, W. T.

Many columns of this paper could be filled with accounts of cures performed by the Drs. Darrin, substantiated by highly eulogistic testimonials from grateful patients.

Attention is called to a few of the following

EXTRACTS OF TESTIMONIALS.

Mrs. J. J. Evans, Stella, W. T.: Neuralgia of the stomach and heart, weak lungs and greatly emaciated; cured and gained ten pounds in two months.

Mrs. General Adams, Medical Lake, W. T. Numbness and congestion of the brain, produced by a diseased condition of delicate organs; also the headache and nervous dyspepsia of twenty years' standing. She was cured two years ago by Drs. Darrin.

Miss Ida Hogue, Seattle, W. T. Female complaints and general debility. Cured.

Lillie Quental, Tacoma, W. T. Cross-eyes; cured in two operations. Deafness and catarrh also cured.

Mrs. Mevie Gobbott, Seattle, W. T.—Boy five years old, deaf since 16 months old. Discharging ears and catarrh entirely cured after several treatments.

Frederick Mobs, Sprague, W. T.—Catarrh entirely cured, also of dropsy and varicose veins and milk leg.

S. F. Hoskinson, Fort Blakely, W.T.—Sciatic rheumatism. Cured.

William Little, Seattle, W. T.: Pain in his chest of over eight years' standing. Entirely cured by electro-magnetic treatment.

Mrs. A. J. Quental, 1351 Railroad street, Tacoma, W. T.: Stoppage of tear duct, causing tears to overflow down the cheeks. Cured by one operation.

Mrs. M. E. Day, Port Madison, W. T.: Throat difficulty cured.

D. C. Widden, Seattle, W. T.: Deafness. Hearing restored.

John M. Romeyer, Palace restaurant, Seattle, W. T.: Sciatic rheumatism. Cured by the electro-magnetic system.

Evans Harmon, Lowell, Snohomish county, W. T.: Cured of deafness.

OFFICE HOURS AND PLACE OF BUSINESS.

The Drs. Darrin are located at the International Hotel, Cherry street, Seattle, W. T. Consultation free.

Office hours, from 10 to 4 daily; evenings, 7 to 8; Sundays 10 to 12. All curable chronic diseases, blood taints, taints, strictare, catarrh and deafness are confidentially and successfully treated. Circulars sent free. Most cases can receive home treatment after a visit to the doctors' office.

(The Drs. Darrin also have a branch office at 235 Fifth street, Portland, Or., where any in that vicinity can consult them.)

A Warning.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the throat and lungs than any other. It is probable that everyone, without exception, receives vast numbers of tubercle germs into the system and when these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the head, causing catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your throat, lungs or nostrils, obtain a bottle of Boschee's German Syrup. It will give you immediate relief.

DIED.

The funeral will take place on Tuesday next, at 2 o'clock, from the family residence, Simcoe street, and at 2.30 p. m. from the Reformed Episcopal Church. Friends are invited.

"It Makes Me Tired"

To read all the advertisements of medicines upon medicines—when they enumerate with such particularity and minuteness of detail, all the diseases mankind, womankind, and even "babykind" are heir to. How cheap one feels to commence what she supposes to be a tragic or tender love story, read until her sympathies are so thoroughly aroused that she can scarcely sleep without knowing whether they were married or not, and then have it end something like this: "Dr. Pierce's Favorite Prescription is the only positive cure for all classes of "female weakness" such as prolapsus, inflamation, periodical pains, etc. For sale by all druggists."

Dr. Pierce's Pellets are Laxative or Cathartic according to size of dose.

ANCIENT FREE MASONRY.

Annual Meeting of Grand Lodge of B. C.—Dedication Ceremonies.

The new Masonic Hall in New Westminster was dedicated to Masonry according to due and ancient custom last Saturday by Most Worshipful Grand Master, Bro. A. R. Milne, assisted by Grand Lodge and other officers of the order. The Victoria brethren went over by the Yosemite, reaching Vancouver at 8 a. m. Here they remained until noon, when the train for the Royal City was taken. The stoppage at Vancouver gave the Victorians an opportunity for examining the young city and the progress it has made since the fire of 1886. Many had not visited the city since that memorable event. It goes without saying when we state that all were really astonished at the transformation that had taken place. The new buildings now in process of erection, as well as the C. P. R. hotel, were inspected and generally admired.

On arriving at New Westminster a deputation of Masons were awaiting the distinguished brethren, who were conducted to the hotels where apartments had been provided for them. The day was warm; the temperature of New Westminster and Vancouver, it is said, is fully five degrees warmer than that of Victoria. After refreshments had been partaken of the brethren assembled in the old Masonic Hall, the Grand Master presiding. A procession was formed in accordance with the ritual of the craft, and marched through the streets to the new hall. The procession was marshalled by V. W. Bro. Stewart, of Nanaimo. On reaching the new hall the lodge was opened in due form, after which the dedicatory services were entered upon. W. Bro. Mowat, of Union Lodge asked the Grand Master if he would be graciously pleased to conduct the services. W. Bro A. R. Milne, was pleased to consent and proceeded with the imposing ceremony in accordance with the form provided for the craft. The Grand Chaplain, Cannon Cooper led the devotional exercises. The ceremony having been concluded, the Grand Master then proclaimed the hall duly dedicated to the purposes of Free Masonry. He then delivered a very appropriate and exhaustive address specially adapted to the occasion.

The lodge was then called from labor. An opportunity was then given the brethren to inspect the building, the lodge and adjacent rooms. The building is about 120 feet in length, by a width of 30 feet, divided in the following manner: The lodge room proper is 80 feet in length by 30 feet in width and 25 feet in height. Its acoustic properties are excellent, all that could be wished for. The furniture and furnishings are appropriate, but not elaborate. The ante rooms are all spacious and well arranged for masonic purposes. The refreshment room is about 30 feet square. There are lavatories of modern design, and the ventilation is perfect. The whole edifice was greatly admired. It is a fine building; a credit to masonry; the pride of New Westminster, and one in which all British Columbians take an interest.

Refreshments in great abundance had been provided by the brethren of Union Lodge for their guests and visitors.

Grand Lodge was again called to labor in the evening, when the usual routine work was gone through with. Committees on credentials were appointed.

The Grand Master then read his annual report. He was followed by the Grand Treasurer and Secretary. Each of these reports showed that the order was making substantial progress, and that its affairs in this province were in a satisfactory condition. They were ordered to be printed with the annual proceedings of Grand Lodge.

The election of Grand lodge officers was then proceeded with.

GRAND LODGE OFFICERS.

The following Grand Lodge officers were elected for the current Masonic year:

M. W. Bro. A. R. Milne, Grand Master (re-elected), Vancouver Quadra, No. 2.

W. Bro. J. S. Clute, Deputy Grand Master (re-elected), Union Lodge, No. 9.

W. Bro. H. Hoy, Union Lodge, No. 9, Senior Grand Warden.

W. Bro. McKeown, Victoria-Columbia, No. 1, Junior Grand Warden.

Rt. Rev. A. W. Sillitoe, Union Lodge, No. 9, Grand Chaplain.

W. Bro. H. F. Heisterman, Vancouver-Quadra, No. 2, Grand Treasurer, (re-elected).

W. Bro. Henry Brown, Victoria-Columbia, No. 1, Grand Secretary (re-elected).

W. Bro. W. Trickey, Victoria-Columbia, No. 1, Grand Tyler.

New Westminster, June 25—The Grand Lodge assembled this morning at 8:30 o'clock.

Grand Master Milne announced that he had appointed the following Grand Lodge officers: Grand Senior Deacon, M Wolfe; Grand Junior Deacon, W W Northcote; W Bro Morris Moss, Grand Superintendent of Works; W Bro Duncan, Grand Director of Ceremonies; W Bro Mowat, Grand Marshal; Grand Sword Bearer, W Bro Bine; Grand Standard Bearer, W Bro J O Graham; Grand Organist, W Bro W Downie; Grand Purauivant, W Bro O R T Garrioch.

Grand Master Milne and visiting brethren left on trains and steamers at 1 o'clock, the Grand Lodge having completed its labors at noon.

The Grand Master stated that the appointed officers would be named by him on Monday.

The hour was now well advanced and the lodge adjourned till 3 o'clock on Sunday to assemble and proceed to church, where the Grand Chaplain, R W Bro. Canon Cooper delivered an earnest, well considered discourse very appropriate to the occasion, which was listened to with wrapt attention by the Masonic fraternity and the large assemblage present. It was the anniversary of St. John's Day. The reverend Brother is also Past Grand Chaplain of New Zealand and W. M. of Spallumcheen Lodge.

There were fully 200 brethren of the mystic tie present during the dedicatory ceremonies.

The James Bay baseball nine will also cross over to Vancouver on July 1st. The team will consist of the following young men: A Williams, catcher; F Jackson, pitcher; B Naylor, first base; F Gouge, (captain) second base; T Woodcrson, third base; W Deasy, short stop; T Moust, left field; W Franklin, centre field; D Sullivan, right field; G Mallendaine, substitute.

The Salmon Sealers.

According to the *Alaskan* the four British sealers in Sitka harbor will be towed to Seattle some time next month, where they will be sold at auction by the marshal. The vessels and their appraised value are as follows: schooner Ada, $2,900; steam schooner Grace, $10,404; steam schooner Dolphin, $7,750; steam schooner Anna Beck, $2,600. Total value of four vessels, $23,654.

Dentistry.

Dr. W. G. Lange, dentist, can be seen at the office of Dr. R F. Verrinder, over the Masonic Building, Government street.

He intends to remain with us two weeks, and any person desiring first class dental work will do well to take advantage of this opportunity. All operative work done with the electric mallet, the latest and most perfect eastern method for filling teeth. Gold crown work done to perfection. 2w*

Accident at Salt Spring.

A man named Rogers was severely injured on Salt Spring Island last Saturday. He was walking across a bridge and imagined something was coming along behind him. Turning around he missed his footing, falling to the ground beneath the bridge. A telephonic message from Messrs. Brackman & Ker's mill summoned medical aid from this city and it was found that a number of ribs had been fractured.

Well Done Bell.

Princess Louise, wishing to buy an organ this fall, requested two of London's most famous organists to select one, and after a thorough test they chose one of W. Bell & Co.'s. C. A. Lombard & Co. are the sole agents for British Columbia.*

Our Opium Mills.

An Ottawa despatch of the 20th inst. states that the customs authorities are advised that the importation of crude opium into British Columbia to be refined there is increasing at an enormous rate, and as the production of one of the fifteen mills at Victoria is more than enough to supply the whole Dominion, the officials believe the surplus stock is finding its way across the border without the payment of duty. The Dominion government at its next session will take means to restrict the importation of the crude article from China.

Dental Surgery.

R. F. Verrinder, M. D., D. D. S., L. D. S., successor to the late Dr. Thompson, has had seven years experience in the practice of dentistry. Nitrous oxide gas and all anæsthetics administered. Office in old Masonic building, 73 Government street, Victoria, B. C.

The Hospital.

It is to be hoped there will be a good attendance at the meeting of the Royal Jubilee Hospital Committee to-morrow forenoon. The amount required is somewhat more than what is on hand, but it is expected the amount will be fully completed to-morrow. The agitation on the site question has materially interfered with the subscriptions in arrears, some making this an excuse for deferring payment. The friendly and other organized societies in the city have made a very poor return, with the exception of the Pioneers, who subscribed and paid $250, which is in striking contrast with other societies and the City Council, which promised assistance but have not yet contributed.

Another Industry.

Gradually Victoria is becoming a manufacturing center. The latest addition to our industries is cotton and linen bag making, which Mr. Munroe Miller has just added to his extensive book and job printing establishment. His plant for turning out bags from the bale of cotton or linen is complete. He has now a contract for several thousand for the Enderby Mills. Hitherto these bags have been imported from either Montreal or the United States. Mr. Miller buys his cotton cloth in bales, cuts, sews and turns them by machinery as well as printing on the outside. They are then baled and forwarded to their destination to be filled with the staff of life and sent to all parts of the province, and shortly the Red Star brand will be found in China and Japan. The industry is certain to grow. Employment is given to a number of hands in connection therewith by Mr. Miller, who is sanguine of being able to make as good a bag as is made anywhere.

Mr. Bairnsfather has an excellent voice, and sang with feeling and power. Both as a singer and teller of Scotch stories it is hardly going too far to say he is fully equal to the famous Kennedy. Indeed, in some respects he is even superior. Miss Bairnsfather has a remarkably pure and sweet soprano voice.—Toronto "Globe."
